

5 Things to Know About 5G

**it will be all things,
to all people**
raises complexity levels
across ecosystem

**new bands for 5G
(n77/79)**
unprecedented increase
in mobile bandwidth

NSA = acceleration
RF complexity from
dual connection:
LTE anchor with 5G NR

**expand through
LTE re-farming**
triple the work to get
mobile RF right

**eMBB will be first,
and soon**
deployed in sub-6 GHz
and mmW
