## **Qorvo Policy on Change Notices to Customers (PCN's)**

Qorvo follows guidelines for Process/Product Change and End of Life Notifications to our customers found in JEDEC J-STD-046 (Customer Notification Standard for Product/Process Changes by Electronic Product Suppliers) and J-STD-048 (Notification Standard for Product Discontinuance) standards.

Classification of Major and Minor change is determined as defined in the standard:

- a) Major change: a change that may affect the form, fit, or function of the product or adversely affect the quality or reliability of the product.
- b) Minor change: a change that does not affect the form, fit, function, quality, or reliability of the product.

This determination is made by Qorvo and based on data available at the time of the PCN release. Customers will be notified of changes that affect the form, fit, or function of the product or adversely affect the quality or reliability of the product.

Qorvo procedures require 90 day advance notification of Process/Product Changes and 6 months advance notice for last time buy and 12 months for last time ship for EOL notifications. While Qorvo makes every effort to adhere to these requirements, there may be instances where there are unavoidable circumstances that may result in a shorter notification time.

Qorvo provides services for automated email alerts for both Process/Product Change and End of Life notifications to our customers. Customers should register at <https://pcnalert.qorvo.com/Account/Register> to ensure they receive timely notification of any PCN or EOL notice. This service is offered at no cost to Qorvo customers. Customers with an account can login at <https://pcnalert.qorvo.com/Account/Login> to search for and view notifications.

Customers may also contact Qorvo with any questions about our PCN process or questions specific to any PCN by sending an email to [PCNResponse@qorvo.com](mailto:PCNResponse@qorvo.com)
